ASM Snippets

What you can expect at the ASM.....

Each week between now and the ASM we will profile some of the excellent speakers which you will hear at the ASM. This week is **Dr Jeffery Post**.

If you thought doing research was hard imagine how much more complex it is when your research participants are prisoners! Dr Post is an Infectious Diseases Physician and Senior Staff Specialist at Prince of Wales Hospital and Albion Street Centre. He also undertakes a regular clinic in the Justice Health hepatitis service at prisons across NSW. Dr Post will share with us the challenges and rewards of conducting hepatitis C research in the prison setting.

Book Now!!

The 2010 Annual Scientific Meeting will take place in Sydney on **March 25th & 26th**.
